

Robotic game design

Write your ideas below.

LITZRUDY JUSTINVIL JAN 12, 2021 09:01PM

fastest root, through some sort of running

a robot that can swim

Robot boxing match

lazer tag lazer tag Your avatar Add comment A ropes course? simi A ropes course? similar to an obstacle course, but a little more complex Your avatar Add comment War Your avatar Add comment War

This FIRST Competition is powered by Star Wars again so potentially some sort of Star Wars theme like Droids vs Clones

A robot swimming competition

Robot sumo wrestling

a robot that can cook an egg

A robot that can bring sunken items back to the surface.

space, or space discovery

capture the flag

Capture the Flag

King Of The Hill

King of the Hill

Building some structure and then climbing w same robot

i like a robot that does something practical! — CHRIS ODOM

A robot that can make lemonade.

i like a robot that does something practical! — CHRIS ODOM

Obstacle Course where the robot goes thorough a maze

a discovery task, where each team tries to find different items

Destruction

something involving the elements, if you could make a design that could withstand a lot of pressure or high temperatures?

A race course where the robot is autonomous.

fully autonomous? — CHRIS ODOM

Maybe manually controlled but if it where to crash it would move the other way or brake. — ANONYMOUS
